SUMMARY

Frontend and Mobile Developer with 3+ years of frontend experience and 2+ years in mobile development. Skilled in building production ready applications using React, Next.js, TypeScript, and Flutter. Experienced in API integration, BLE data handling, performance optimization, and delivering features end to end. Focused on clean architecture, reliable UI behavior, and efficient problem solving. Looking for opportunities to grow within a product driven engineering team.

EXPERIENCE

Flutter Developer   10/2023 - Present
PT Hydant Inovasi Semesta

- Developed and maintained Android applications using Flutter with strong emphasis on performance and stability.
- Integrated complex REST APIs and optimized data processing to reduce load time.
- Identified and resolved high priority bugs affecting real users.
- Successfully delivered and published JENOS and Turelth apps on Google Play Store.

Tech: Flutter, Dart, REST API, State Management (Provider)

Frontend Developer   09/2022 - 05/2025
PT Tristar Surya Gemilang

- Developed and maintained responsive web applications using React, Next.js, and TypeScript, ensuring performance across devices.
- Translated UI/UX wireframes into clean, functional, and maintainable interfaces.
- Collaborated with UI/UX Analysts, back-end developer team, and QA engineers to implement finalized design concepts and ensure system reliability.
- Integrated RESTful APIs and optimized client-side state management for smoother data flow in complex systems.
- Contributed to SISAPPRA (Satpol PP DKI Jakarta) and BJB LMS KPR as part of the frontend engineering team.

Tech: React, Next.js, TypeScript, Redux, Axios
